

# LIQUID GAS WEEK

12<sup>th</sup> – 16<sup>th</sup> OCTOBER 2026 • ISTANBUL

## Resilience in a Changing World

# Liquid Gas Week

**Liquid Gas Week** is the **flagship annual event** of the **World Liquid Gas Association (WLGA)**, bringing together industry leaders, policymakers, and stakeholders from across the globe.

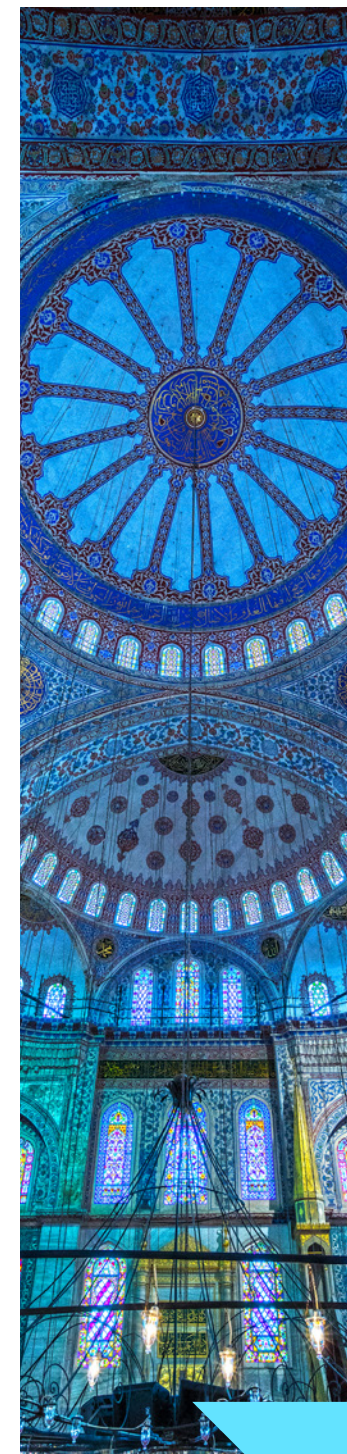

This premier gathering unites CEOs of major LPG companies, government ministers, intergovernmental organisations, and media to **shape the future of the Liquid Gas sector**.

The event offers a **dynamic platform** that spans the entire **Liquid Gas value chain**, featuring:

- **High-impact conference sessions** with industry experts
- **Interactive meetings and workshops** for in-depth discussions
- **Unparalleled business and networking opportunities**
- **A international exhibition** showcasing cutting-edge innovations

Whether you are a **producer, shipper, trader, distributor, manufacturer, government official, media partner, or consumer**, **Liquid Gas Week is an unmissable event** that fuels progress, collaboration, and industry transformation.

Be part of the conversation that shapes the future of Liquid Gas!

## From LPG Week to Liquid Gas Week

The change from LPG Week to Liquid Gas Week was implemented in 2025, and reflects an expanded focus within the industry. While LPG Week primarily concentrated on Liquefied Petroleum Gas (LPG), the rebranding to Liquid Gas Week encompasses a broader range of Liquid Gases, including but not limited to LPG.

This shift allows for a more inclusive representation of the Liquid Gas sector, addressing various types of Liquid Gases and their applications, innovations, and market developments. Liquid Gas Week attracts a wider audience and fosters greater collaboration and knowledge-sharing across the entire Liquid Gas industry.

## The venue: Istanbul Congress Center (ICC)

Liquid Gas Week will be held at the ICC conveniently situated near several hotels.

## Resilience in a Changing World

**“Resilience in a Changing World”** showcases the Liquid Gas sector’s unwavering strength, adaptability, and spirit of innovation in the face of global uncertainty. As energy policies shift, markets evolve, and climate challenges intensify, this theme underscores the industry’s exceptional ability to navigate disruption, seize opportunity, and consistently deliver reliable, low-carbon energy to communities across the globe.

## The Turkish LPG Market

Türkiye consumes over 4.5 million metric tonnes (m mt) of LPG a year. Most of it (3.5m mt) is consumed in the transport sector making Türkiye one of the largest Autogas markets in the world with over 4.8m vehicles running on LPG.

The country’s refineries produce over 1m mt of LPG a year with the remainder being imported.

The country boasts a per capita consumption of nearly 10kg/year.

## The Turkish LPG Market in Figures

Total of 4.5 million metric tonnes (m mt) of LPG consumed each year

Approximately 50 m cylinders in the domestic market

800,000 mt/yr of LPG consumed in the domestic sector

4.8 million (m) vehicles running on LPG consuming 3.5m mt/year

Over 10,000 Autogas stations

1m mt/year of refinery produced LPG and 3.5m mt of LPG imported each year

## Liquid Gas Week Facts & Figures

**2,500**  
PARTICIPANTS

**110**  
COUNTRIES REPRESENTED

**150**  
EXHIBITING COMPANIES

**25**  
SPONSORS

**100**  
SPEAKERS

## About the World Liquid Gas Association

The World Liquid Gas Association is the authoritative voice for the global Liquid Gas industry, representing the full Liquid Gas value chain. The primary goal of the association is to add value to the sector by driving premium demand for Liquid Gas, while also promoting compliance to good business and safety practices.

With over 300 members in 125 countries, the association brings together private and public companies involved in one, several or all activities of the industry, develops long-term partnerships with international organisations, and implements projects on local and global scales.

## About the destination

Türkiye is located at the crossroads of Southeastern Europe and Southwestern Asia.

Türkiye's land area spans over 769,632 square km (slightly larger than Texas) and has a population of over 84 million making it the 18<sup>th</sup> largest country in the world.

The country has an industrialising economy that maintains a large agricultural base. Istanbul, the largest city in Türkiye, is the link between Europe and Asia. It is the country's economic, cultural and historic capital with a population of over 15 million residents.

In 2024, Euromonitor International ranked Istanbul as the second most visited city in the world, welcoming 23 million visitors.

The historic centre of Istanbul is a UNESCO World Heritage Site, and the city hosts the headquarters of numerous Turkish companies, accounting for more than thirty percent of the country's economy.
